

Year 1 Topic Term 3

Toy Story

How to help with
your child's learning
at home.

Maths

Continue to familiarise
yourself with numbers up
to 20. Can you order
them? Can you count out
and calculate addition
and subtraction
sentences using toys?

English /History

Can you create a story
using your favourite toys?
What would happen if
they all came to life? Ask
your parents and
Grandparents about toys
from the past.

PE

Practise throwing and
catching balls with a
grown up or sibling.
Can you catch with
one hand? Different
hands?

Design and
Technology

Can you create
your own puppet?

RE

Think about the
communities and
clubs you belong
to. How do they
make you feel?

Geography

Can you spot
human and
physical features
when out and
about? What about
following a map?

**Year 1 Topic
Term 3
Toy Story**

Geography

We will be learning about physical and human features and using a simple key on a map.

Design and Technology

We will be designing and creating our own puppets using split pins and other materials.

PE

We will be learning the skill of catching and throwing accurately, using different resources such as balls, scarves and balloons.

ICT

We will be learning about algorithms. What they are and how to input them into a programmable device.

Maths

In Maths we will be learning and becoming more confident with numbers up to 20. Ordering and practising addition and subtraction calculations.

RE

In RE we will be discussing belonging and different communities and clubs we may be a part of. We will be learning about Christianity.

English /History

We will be comparing modern day toys to toys from the past. Through different stories we will be practising writing recounts and adapting stories.
