

Out of this World

Art

Creating space art using various media. We will be using card, sugar paper, water colour, acrylic paint and oil pastels.

Geography

We will be learning about the 7 continents and 5 oceans. We will be locating them and discussing their countries.

Year 2 - Term 1

During our topic we will:

ICT

Understanding games. We will be exploring various games and discussing the algorithms to make the games.

Music

We will be discussing pitch. We will listen to various Holst pieces and composing our own space inspired music.

Science

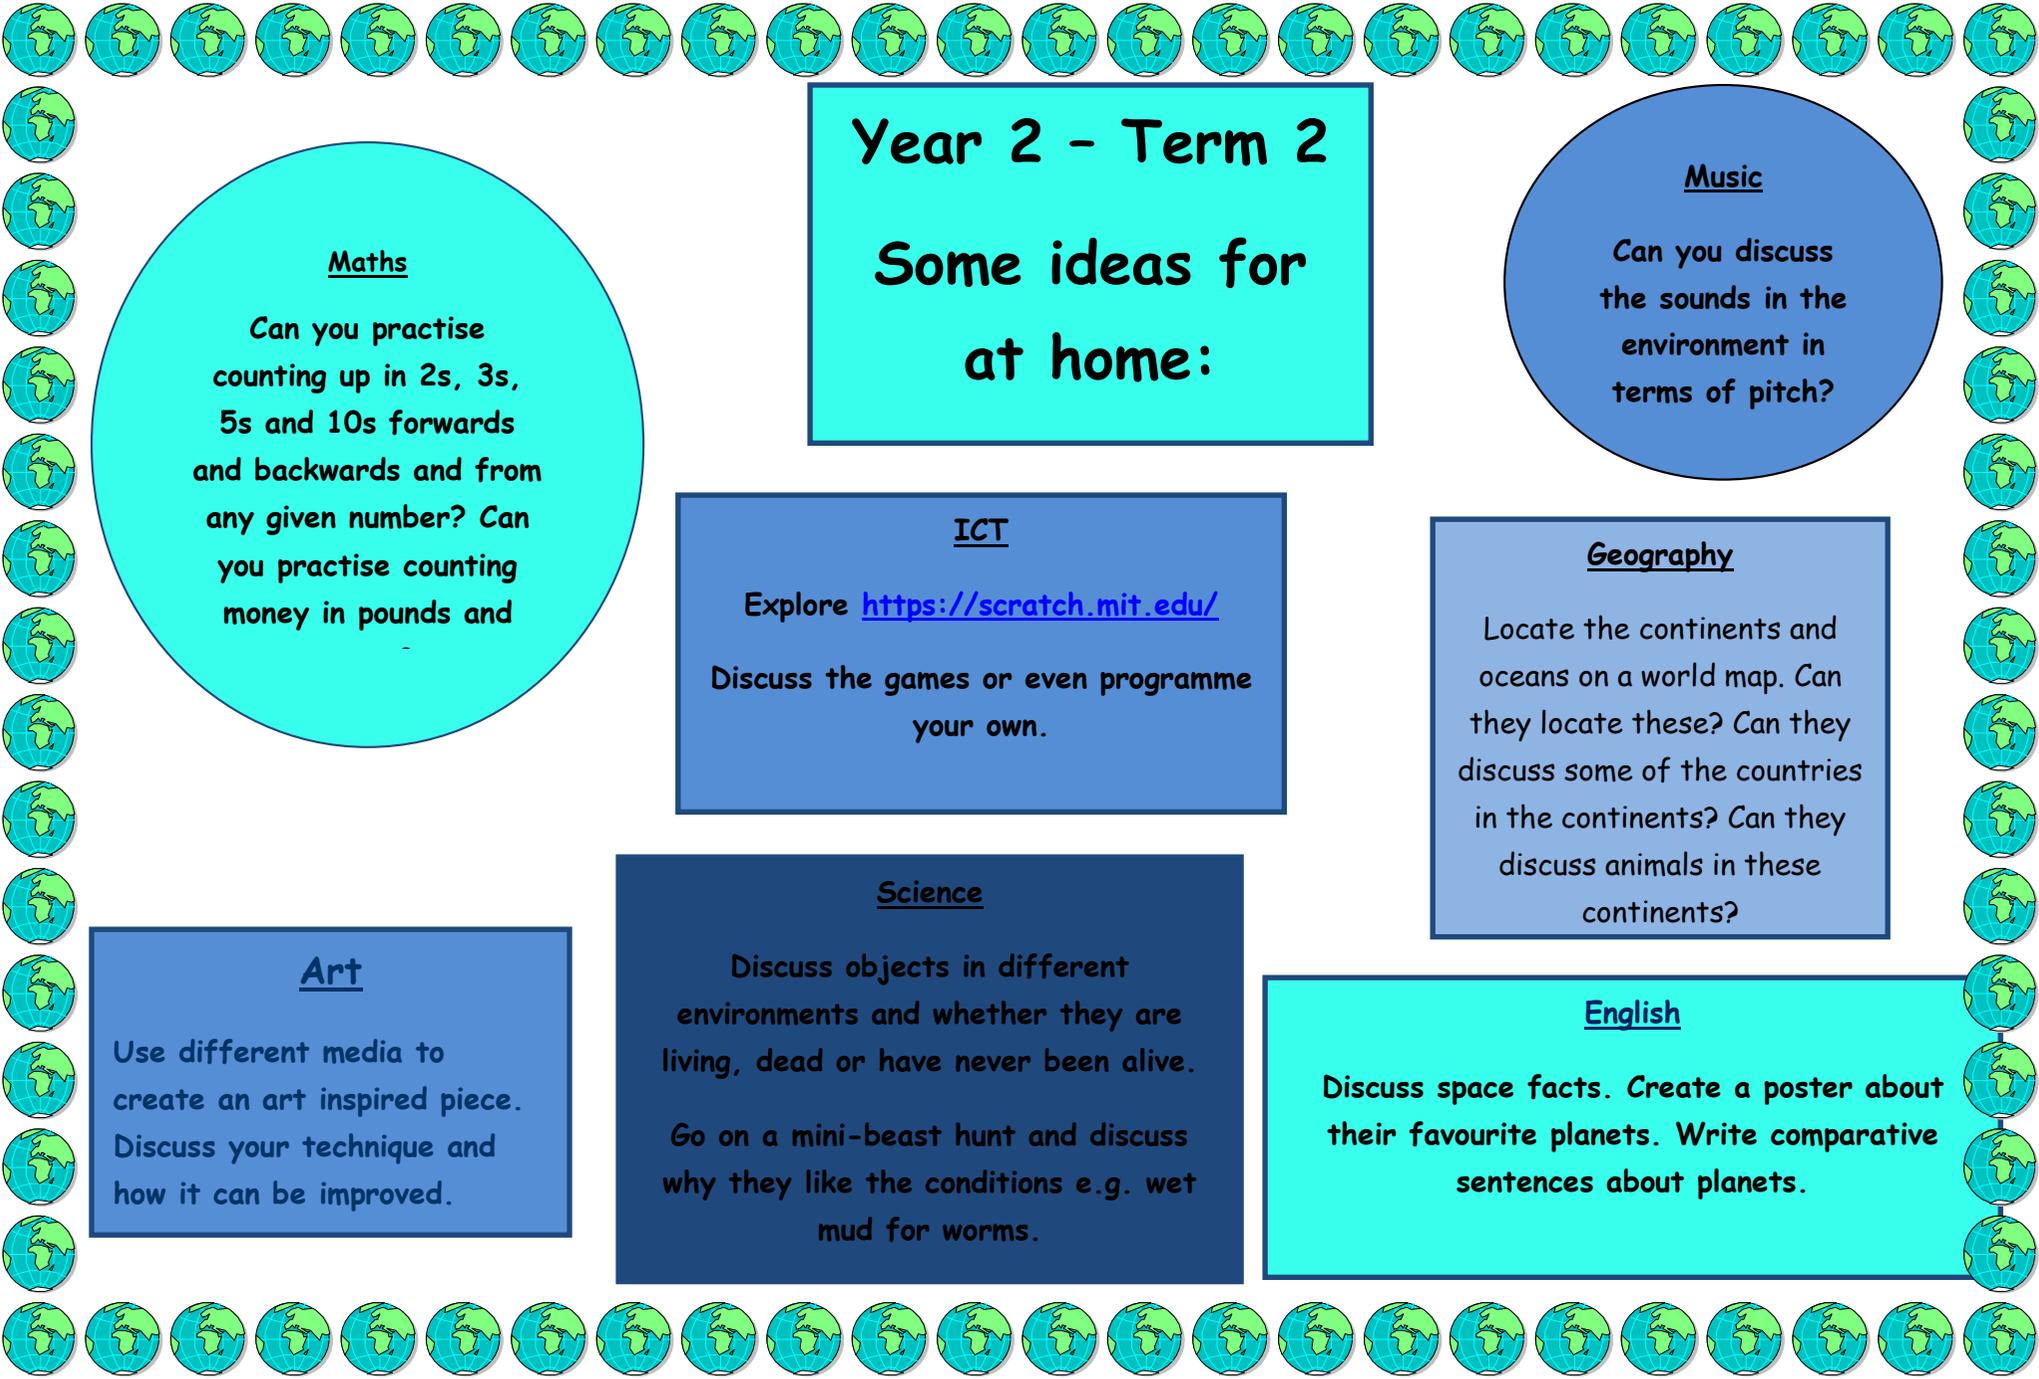

This term we will be discussing objects in our environments and sorting them into living, dead or have never been alive. We will begin to understand habitats as microhabitats and discuss the mini-beasts that live in different microhabitats.

Maths

This term we will be counting money in pence and pounds. We will add amounts together and then work out change. We will also be learning about multiplication and division.

English

We will be learning about Space. We will be writing fact files on the 8 planets. We will learn about Neil Armstrong and his life, we will use drama to act out his landing on the moon. We will be writing letters. We will be reading 'The story of Bob: Man on the Moon'.

Year 2 - Term 2

Some ideas for at home:

Maths

Can you practise counting up in 2s, 3s, 5s and 10s forwards and backwards and from any given number? Can you practise counting money in pounds and

Music

Can you discuss the sounds in the environment in terms of pitch?

ICT

Explore <https://scratch.mit.edu/>
Discuss the games or even programme your own.

Geography

Locate the continents and oceans on a world map. Can they locate these? Can they discuss some of the countries in the continents? Can they discuss animals in these continents?

Art

Use different media to create an art inspired piece.
Discuss your technique and how it can be improved.

Science

Discuss objects in different environments and whether they are living, dead or have never been alive.
Go on a mini-beast hunt and discuss why they like the conditions e.g. wet mud for worms.

English

Discuss space facts. Create a poster about their favourite planets. Write comparative sentences about planets.
