

## Year 1 "Under the Sea" Topic Homework Grid

Please choose one task each week to complete for homework. Tick off the task you have completed. Any writing, pictures, photos etc. can be recorded in this book. The children will get a chance to share & celebrate their homework with their friends in class on Fridays so please make sure this book comes in to school **every Friday**. Thank you.

Find out 3 facts about a creature that lives under the sea.	Visit your local aquarium or fish tanks in a garden centre. What did you see? Record by labelling photos or pictures. You could even make a tally of how many of each creature you see.	Think about how to be safe near the sea. Can you make a poster to remind others how to be safe?	Learn an "Under the sea" song to share with the class? Or maybe you could make up your own!
Make your own octopus! Count how many legs it has. How many legs would 2 octopus' have? How can you show this?	Can you find a book about the sea to bring in and share with the class?	Have you ever visited the sea? Can you remember what you did there? Draw or write a recount of your day.	Decorate a pebble. Take a photo to show us, maybe you could then hide it for someone else to find.
